DETAILED ACTION

1. Claims 10-20 are allowed and renumbered as 1-11.

2. The following is an examiner's statement of reasons for allowance:

The cited art taken either singly or in combination with other prior arts fails to anticipate or fairly suggest the limitations which the Applicant claims in independent claim 10 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103, especially when these limitations are considered within the specific combination claimed.

The cited art, U.S. Pat. No. 5,894,108 to Mostafazadeh et al., discloses a fabricating method of a semiconductor package comprising the steps of providing a lead frame (110) having a plurality of leads (115) extending inwardly from a frame (119) of the lead frame, attaching a supporting carrier (170) to a bottom surface of the lead frame; mounting a semiconductor chip (120) having a first surface and a second surface in a space on the carrier, wherein the space is predefined by the frame of the lead frame and the leads; electrically connecting the first surface of the chip to the corresponding connecting of the leads; performing a molding process to form an encapsulant in the space defined by the frame of the lead frame and the leads, removing the carrier. Mostafazadeh et al., however, fail to teach at least, among other, the leads being formed with strengthening structure on sides thereof and connecting mechanisms being on surfaces of inner sides of the leads, as recited in independent claim 10.

Application/Control Number: 10/627,535

Art Unit: 2827

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
